

# Australian Standards Online

By special agreement with SAI Global, the Concrete Institute of Australia is pleased to offer an **Australian Standards Online service**, a low cost service available to Professional Members of the Institute.

To save the time and expense of maintaining an extensive standards library, SAI Global in partnership with the Concrete Institute of Australia, provides a reference only service to our Professional Members. This service was designed for Members who are self-employed or who work in small to medium businesses and is available at a fraction of the cost for a library of standards or the full SAI Global online subscription service.

This service will give registered subscribers instant access to:

- **All Australian Standards (AS)**
- **Joint Australia / New Zealand (AS/NZS)**
- **Adoptions of International Organisation for Standardisation (ISO) and International Electrotechnical Commission (IEC) Standards**

SAI Global delivers these standards through its new **i2i platform**. i2i is a cost effective content management solution for organising your standards, technical information and regulations.

**SUBSCRIBE TODAY!**

**\$250**

per annum

This service is only available to Professional Members of the Concrete Institute of Australia. Subscribers to this service must maintain their Membership with the Concrete Institute of Australia to retain access.

This Member Benefit is available to:

- Professional Members
- Young Professional Members
- Retired Members

The mission of the Concrete Institute of Australia is to promote and develop excellence in concrete research, technology, application, design and construction throughout Australia
