

# Company Membership

A company reaches peak performance when its people are powered by a shared understanding of their goals and challenges and access to the knowledge and tools they need to meet these.

The Concrete Institute of Australia's Company Membership, is a cost-effective way for you to provide your staff with the access to an extensive range of information and resources to help them deliver quality service to your clients.

Our Company Membership allows companies, both large and small to benefit from our services. Each level of Membership offers nominated Representatives with the full list of benefits provided in the Professional Membership which ensures you are providing your committed employees with access to resources, tools, professional development and up to date information. The Concrete Institute of Australia has four levels of Company Membership – **Platinum**, **Gold**, **Silver** and **Bronze** Memberships.

Our Platinum, Gold and Silver Membership Levels are best suited to organisations with representation or offices in more than one state which will ensure your company receives not only a wider exposure, but staff located in different states can access our seminars, site visits and workshops.

Our Bronze Membership is available for smaller companies that prefer promotional exposure to be focussed on a single state.

<b>PLATINUM MEMBERSHIP</b>	<b>\$13,500</b> incl GST
