

Professional Membership

Knowledge

Attend and participate in one of our numerous professional development activities including:

- Technical events
- Site tours
- Local and international conferences
- Webinars
- eConcrete presentations

Network

The diversity of our membership is one of our greatest strengths. Connect with designers, engineers, contractors, suppliers, academics, architects, business owners, concrete experts and specialists to build and expand your network.

Value

- One (1) **FREE** webinar registration and one (1) **FREE** eConcrete presentation to all new Professional Members in their first year (T&Cs apply)
- Member rates on all of our events, webinars and products in our online store
- **FREE** access to thousands of resources in our Members Hub including our magazine *Concrete in Australia*, Conference papers, Recommended Practices, Current Practice Notes and *fib* Bulletins
- Substantial discounts on subscriptions to Australian Standards Online and membership of the American Concrete Institute

Contribution

- Participate in the future direction of the Institute and industry by joining one of our many Committees or presenting at one of our seminars, webinars or conferences
- Mentoring our up-and-coming Members with guidance and advice

Supporting the Next Generation

- Anyone aged under 35-years can join as a Young Professional at a discounted rate
- We also welcome Students studying full-time in a concrete related field to join
- Get involved with our NEXGen and Women in Concrete Groups around the country

Young Professional: **\$175**

Student: **\$40**

Become a member of the Concrete Institute of Australia

The mission of the Concrete Institute of Australia is to promote and develop excellence in concrete research, technology, application, design and construction throughout Australia.

I find CIA Membership most beneficial to maintaining and continuing my professional development as an Engineer. The Institute's publications and seminars are always relevant and informative, and the staff are incredibly friendly and helpful.

Linden Coot
Structural Engineer
