

Women in Concrete

Women in Concrete is a community and technical network. The focus is to promote greater female involvement, participation, knowledge sharing, and membership with the Concrete Institute of Australia, by making our events, activities and committees more inclusive, accessible, and inviting.

By joining the CIA Women in Concrete Network, members will build their profile, connect with a like-minded community group, and strengthen their professional and technical development.

Network Members receive regular invitations to attend local Meet & Greets prior to our technical seminars, free webinars showcasing those that have paved the way for women working in the concrete industry and a multitude of other events that included talented women presenting on their area of expertise.

For more information and to join the Women in Concrete Network, please visit our website www.concreteinstitute.com.au
